CONNECTICUT PAID FAMILY & MEDICAL LEAVE PAYROLL DEDUCTIONS EFFECTIVE 01 JAN 2021 – This update delivers product modifications to support the calculation and processing of the employee payroll tax for the Connecticut Paid Family and Medical Leave program effective January 1, 2021. The State of Connecticut has enacted legislation implementing a paid family and medical leave program, which will be funded through an employee-paid payroll tax of 0.5% (subject to annual adjustment). Wages subject to the paid-leave tax are to be tied to the amount of annual earnings subject to Social Security tax.

Employee contributions are to start January 1, 2021, with employee benefits to be paid starting January 1, 2022.

Employers who have one or more employees must participate.

FAQs

https://ctpaidleave.org/s/frequently-asked-questions?language=en_US

Covered Employees

Only employees who work in Connecticut can participate in CT Paid Leave. If an employer is paying unemployment insurance for an employee to the CT Department of Labor, that fact is considered to be evidence that the employee works in Connecticut.

An employee who lives in Connecticut but works in another state is not eligible to participate in the CT Paid Leave program, but may be eligible to participate in a paid leave program offered by the state where he or she works.
